

## The Promise of Stem Cell Therapy is Now Available to Performance Horse Owners

Vet-Stem introduces Stem-Stat™ Stem Cell service to equine veterinary medicine.

Vet-Stem, Inc. provides services that concentrate Stem Cells from a small sample of an animal's own fat for treatment of injuries to tendons, ligaments, and fractures in performance horses.

The idea is simple: Concentrate and deliver the animal's own active healing cells to the site where tissue regeneration is needed the most.

### What can Stem Cells be used for in performance horses?

- Bowed Tendons
- Injured Ligaments
- Fractures

### What can I expect from Stem Cell therapy?

- Improved Healing – More natural function with less scarring
- Natural Healing – Cells from your horse are concentrated and delivered to the injured tissue

### 3 easy steps:

- Day 1 – A small sample of fat is collected from your horse by your veterinarian
- Day 2 - Cells processed at Vet-Stem laboratory
- Day 3 - Stem Cells injected back into your horse by your veterinarian

### Where can I get information?

- Call 1-88-VETSTEM1 (1-888-387-8361)
- Web: [www.vet-stem.com](http://www.vet-stem.com)
- E-mail: [info@vet-stem.com](mailto:info@vet-stem.com)

To find out more about Stem Cells and how they can help your horse, ask your veterinarian or contact Vet-Stem for an Authorized Veterinarian in your area.
